

# DOG BITE INVESTIGATION COURSE

INVESTIGATE | ANALYSE | REPORT

THE EVIDENCE TO UNDERSTAND. THE SKILLS TO DEFEND.

A 2-day advanced course focused on the systematic investigation of dog bite incidents. Participants will develop skills in evidence collection, scene assessment, victim and witness interviewing, and behavioural interpretation. The course also addresses limitations of bite mark analysis, reconstruction of events, and preparation of clear, court-ready reports to support legal proceedings.

Figure 3. The relationship between the upper canine teeth of the male (left) and female (right) dog with the puncture wounds showed the inter-canine distance in both dogs was 45mm.
